

Any report. Any way. Right Now.

Any report

“I can build my reports right in Excel and get exactly what I want.”
—Shari Masdaam, CFO, Pickseed Corporation

Any way

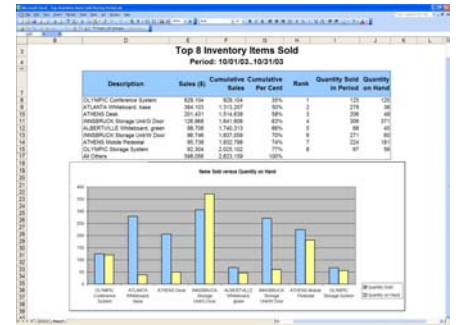

“With Jet Reports getting the data out of Navision is easy. It’s all Excel. Accountants live in Excel. Jet Reports is great!”
—Chris Robuck, Director of Finance, City of Sherwood

Right Now

“Jet Reports lets me do in a half hour what used to take me 3 days.”
—Bruce Wakefield, VP Finance, Poorman-Douglas Corporation.

Finally, get the reports you really want

You work hard to enter the data in your database correctly. You don’t want to work hard to get the information back out. Get the reports you want on any data in Microsoft Navision. Jet Reports offers you a unique method to report on data right in Microsoft Excel. Excel is familiar and easy to use.

Jet Reports gives you 25 pre-built reports addressing the needs of accountants, finance people and business managers. The reports access a multiple of granules and modules in Navision. You get financial, inventory, sales, customer, budgets, even fund reports at your fingertips. Then change the date range and refresh the reports yourself to get the latest most accurate information. You can even publish the reports as Web pages in addition to locked spreadsheets.

Get a real return from Jet Reports

Most Jet Reports users experience a return on their investment within one week using Jet Reports.

Focus on running your business rather than collecting and formatting data. Build reports you only dreamed of.

Save money and time—customize your own reports

Now you can build and customize most reports yourself without hiring expensive consultants or spending days on reports. You can build ad hoc reports in minutes using Jet Reports new Designer Drag and Drop function place fields from your database right into Excel—it’s simple. Then, format the reports the way you want.

It’s all Excel

Jet Reports uses Microsoft Excel as the workspace. Everyone uses Excel. There is no new programming language to learn—it’s Excel. Use all the Excel formatting capabilities and functions to customize your reports. If you don’t know Excel, don’t worry, just drag and drop the fields right into Excel and your report is done.

Jet Reports at a glance

- [Jet Reports Drill Down](#) gives you access to Navision right from your report to see the data making up the report entry.
- [Jet Reports Autopilot™](#) automatically publishes your reports as Excel files or Web files.
- [Jet Reports Drag and Drop™](#) feature lets you build reports by pointing at fields and dropping them right into Excel.
- [Jet Reports Designer™](#) lets you see all your database connections, tables, fields and sample field data in each database. You can also drill down into your database right from Excel to explore the tables.
- [Jet Reports Universal Connector](#) lets you connect to any ODBC compliant database.
- [Jet Reports Security](#) honors all Navision security. Published spreadsheets are locked and unchangeable.
- [Jet Reports Replicator™](#) technology allows you to build reports from a single record. Jet Reports uses the formatting from that record to replicate the rest of the data throughout the workbook down rows, across columns and across sheets.

Refresh reports automatically with the latest data

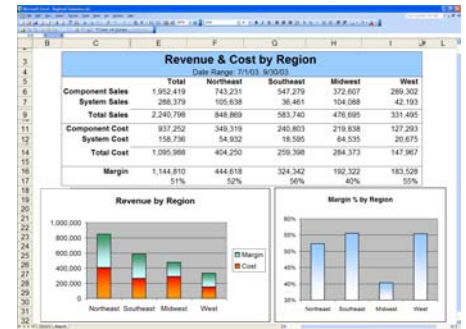

Imagine getting your reports refreshed each day, week, month, or quarter automatically as Web pages or Excel spreadsheets. You pick the period. You choose the report. You even get to choose whether the reports are Excel spreadsheets, Web pages or PDF files.

Unlimited access to data

You can build reports with any data that exists in any database connected to Jet Reports. Collect data from all your tables, flow fields, custom fields, custom tables and dimensions. Collect data from multiple tables without programming. Even consolidate data from multiple databases with Jet Reports Universal Connector.

You're not alone

Hundreds of Navision customers are using Jet Reports daily. Customers across the US, Canada and in Europe use Jet Reports. Customers in manufacturing, agriculture, retail, restaurants, distribution, non-profits, government, commercial fishing, importing, etail among others use Jet Reports to manage their businesses each and every day.
